Introduction

This plan is compliant with current legislation relating to Disability of the Equality Act 2010 and shows how the School is meeting its general duty to promote disability equality across all its areas of responsibility.

Definitions Disability The DDA uses a very broad definition of disability: "A person has a disability if he or she has a physical or mental impairment that has a substantial and long term negative effect on his or her ability to carry out normal day today activities" Education and associated services.

This is a broad term which covers the whole life of the School. "It covers not only the curriculum, teaching and learning but school clubs and activities, break and lunchtimes, school sports, school policies, interaction with peers, assessment and exam arrangements and preparation of leavers for their next phase of education".

Objectives 1. To increase the extent to which disabled persons (as broadly defined by the DDA) can access and participate in the School's curriculum.

2. To improve the School's physical environment to enable disabled students to take better advantage of education, benefits, facilities and services provided.

3. To improve the availability of accessible information to disabled students.

4. The School recognises that disabled individuals, parents of disabled pupils and voluntary organisations working with the disabled will have knowledge and experience that can help inform the School's actions.

6. This relates to the existing strategic planning process and therefore is linked into the following plans and policies: · Curriculum Policies · SEND Policy · Staff Development Policies · Equal Opportunities Policy.

The SEN and Disability Act (2001) extended the Disability Discrimination Act (DDA) (1995) to cover education.

Since September 2002, the Governing Bodies of Schools and Academies have had three key duties towards disabled pupils under Part 4 of the DDA:

- (i) Not to treat disabled pupils less favourably for a reason related to their disability.
- (ii) (ii) To make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage.
- (iii) (iii) To plan to increase access to education for disabled pupils. This duty requires schools to produce an Accessibility Plan, published and evaluated annually, which identifies the action the school intends to take over a three year period to increase access for those with a disability in three key areas.

The three areas are:

- (i) Increasing the extent to which disabled pupils are able to participate in the school curriculum.
- (ii) Improving the environment of the school to increase the extent to which disabled students can take advantage of education and associated services.
- (iii) Improving the delivery to disabled students of information which is provided in writing for students who are not disabled.

In addition, the Equality Act 2010 requires all schools to:

- Eliminate discrimination that is unlawful under the DDA
- Eliminate harassment of those with a disability
- Promote positive attitudes towards disabled persons
- Encourage participation by disabled individuals
- Take steps to take account of disabilities even if this involves treating disabled persons more favourably.

The Mulberry Academy Woodside Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.

Whole school training will recognize the need to continue raising awareness for staff and Governors on equality issues with reference to the Equality Act 2010.

(2) Definition of Disability

2.1 A person has a disability under the Disability Discrimination Act 1995 if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities. Physical or mental impairments can include sensory impairments (such as those affecting sight and hearing) and learning difficulties. The definition also covers certain medical conditions when they have a long-term and substantial effect on pupils' everyday lives.

(3) Review

The Accessibility Plan will be monitored through the Governor for SEND. It may not be feasible to undertake all of the work during the life of this Accessibility Plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

The school will work in partnership with the Local Authority in developing and implementing this Accessibility Plan. The School will continue to seek the advice of appropriate support services.

The Accessibility Plan may be monitored by Ofsted during inspection processes in relation to Schedule 10 of the Equality Act 2010

The Accessibility Plan

The plan aims to widen opportunities for students and look into positive ways of overcoming both existing and potential difficulties, remove barriers to learning and improve access to all aspects of education. We aim to:

- Improve access to the curriculum by:
 - Providing a curriculum which is appropriate to their needs for all students
 - Ensuring that the curriculum is delivered in such a way that all students, regardless of any impairment, may benefit fully from it
- As much as is reasonably practical, make physical improvements in order to increase access to education and associated services by:
 1. Ensuring that all the school buildings and grounds are fully accessible to students with mobility, sensory and other impairments.

2. Providing appropriate educational equipment and physical aids to ensure that educational programmes in the school can be fully accessed by all students.

- Improve the means by which information is distributed by:

1. Providing for pupils and their parents/carers, information about the school and its curriculum in a format that takes account of any disabilities

2. Collating yearly feedback from students regarding the effectiveness of our provisions so that it can be improved
