Curriculum Overview 2024 - 2025

Curriculum intent statement:

“If you talk to a man in a language he understands, that goes to his head. If you talk to him in his own language, that goes to his heart.”

Nelson Mandela

In Modern Languages our aim is to create a personalised curriculum in which pupils develop:

- their love of language learning
- an appreciation of other cultures
- resilience in order to learn how to learn

Students will build their linguistic knowledge and skills in an enriching and supportive environment. Through the study of grammar each child will learn how a language works, while music, film and ICT based learning will make for an enjoyable and engaging language learning experience. In turn, this will provide a platform for them to develop into able life long linguists and succeed in whatever they aspire to do.

The **KS4** course builds the foundations at **KS3**, continuing to develop listening (note taking), speaking (debating and presenting), reading (including skim and scan), writing (in a range of registers) and translation skills so that each student is able to converse and debate on a range of different themes and be able to partake in a work placement, student exchange or holiday in any Francophone/Spanish speaking country or continue to A level.
